

The Tropics

I have had the pleasure of meeting with John and Mary who have given their life for the care of unwanted and handicapped birds. The tropical birds are the 3rd worst animal problem facing us. The birds require a lot of attention, food, cleaning, and love. Mary and John have given all that plus. 8 years ago I rescued a male and female umbrella cockatoo. Their commitment to the refuge is priceless. They are angels from heaven. We need more places for birds with people like Mary and John. Their work is hard and a day doesn't go by that I don't think of them and all they do.
