

Hi Mary & John,

We're always excited when we see a letter in our mailbox from the Tropics, but WOW was the one we received yesterday GREAT !!!!! You were really on a roll. Wish you could blanket the whole country with that one. I am always in awe of your wisdom and I thought you really did an outstanding job of getting your message across. I sensed a wide range of emotion; from anger to empathy, all the while staying balanced. We were also delighted and proud to see our handsome son Satch as a parrot model. He's practically famous now.

Thanks again for always letting us come spend time with you and our green guy. We sure enjoy it, and this time was especially thrilling for Mark since Satch gave him no grief. You are a miracle worker!!!

Mark & Marianne
