TESTIMONY: SIERRA THE M'TOO.

Hi Mary,

I hope this e-mail finds you and John doing well. I just wanted to take a moment and give you a quick update on Sierra...the sweetest bird on earth, I do believe. He has adapted very well to our household, and is eating, playing and vocalizing quite normally. He loves his new cage, and has just recently begun venturing out on his own when the door is left open for him. He has also taken to Jim much better than we could have even imagined. He cuddles with Jim, lets him give lots of kisses and petting, and Jim is very happy about this.

We had him checked out by our veterinarian, and all seems just fine!!! We plan to move him to the living room with the rest of the flock tonight. He has been staying in our bedroom with us since he came to live with us, so I am hoping the move will not stress him too much. The other birds are very curious to know who is making all that noise in the other room!!! Sierra seems to be mostly easy-going, and for this reason, I think he will be just fine.

Anyway, I know you probably have wondered how things are going...I did put some of the calendar flyers at the vet's office, and a local pet store. I hope you will get some response. I will keep in touch, and please let me know if there is anything I could possibly do for you and John to help out.

God Bless,

Lisa D. Wulff
